PRODUCT ADVANTAGES

Feed with very high feed value, it provides excellent growth results, homogeneous batches and optimal conformation

Very rich in skimmed milk powder (50%), ARRANQUE 5 is a highly appetizing and highly digestible food

With the low-temperature pasteurization of the milk powder, the integrity of the proteins is guaranteed and ensures optimal coagulation (fast and firm) in the abomasum

100% vegetable oil

Prebiotics (MOS) promote better regulation of the intestinal flora

The association of fats rich in short fatty acids ensures a perfect digestibility and a quickly available energy input

Essential trace elements for calves' growth. Its natural form allows a better bioavailability (absorption and assimilation)
